WHAT IS STRESS?

Stress in humans results from interactions between persons and their environment that are perceived as straining or exceeding their adaptive capacities and threatening their well-being. Prolonged experiences of stress can have a detrimental effect on our health and if not dealt with properly, can lead to long-term psychological and physiological problems.

WHAT IS A STRESSOR?

A stressor is any biological, chemical, emotional or physical substance or factor that can cause temporary or permanent harm. Internal and external stressors have been proven to contribute to many symptoms and illnesses. Examples of common stressors can include: emotional (marriage, death, work); chemical (cigarette smoke, toxins); environmental (hay fever, grass, food); or biological (cats, dust mites).

WHAT IS THE NANO SRT WELLNESS SYSTEM?

The Nano SRT Wellness System is both an assessment and therapeutic tool

used by practitioners to identify those substances causing stress on the body (stressors) and then correct your body's response so that future exposure to those substances no longer causes a stress response. The Nano SRT Wellness System is safe and effective for adults and children of all ages. The therapy is non-invasive, painless, and contains no needles, shots, medication or supplements.

HOW DOES IT WORK?

The Nano SRT Wellness System is based upon Bio-Electric (Frequency) Medicine principles which state that ALL substances, living or otherwise, possess a unique, measurable energetic frequency. The Nano SRT Therapy utilizes the Nano SRT Focus Therapy Tool to transmit a series of frequencies that are developed as a result of the biofeedback test, and unique to each individual. These frequencies are transmitted via an LED light to various meridian points on the body. By transferring these frequencies into the body, the Nano SRT therapy recalibrates the body's response so that future exposure to the corresponding substances now allows the biofeedback measurements (and the body's reactions) to fall within the acceptable parameters. Your body no longer feels overburdened or stressed by the stressors. ■

Dr. Lisa Hunt

Lisa J. Hunt, D.O., is the Medical Director of Valley Wellness Center in Modesto whose mission "is to build on every level of your health to achieve the best quality of life." She is Board certified in Family Medicine and Holistic and Integrative Medicine. She specializes in anti-aging treatment, natural thyroid replacement, menopause/andropause therapy (including bio-identical hormone replacement), strengthening the immune system, neurotransmitter analysis/replacement and nutritional support guidance.
